# BFW 15

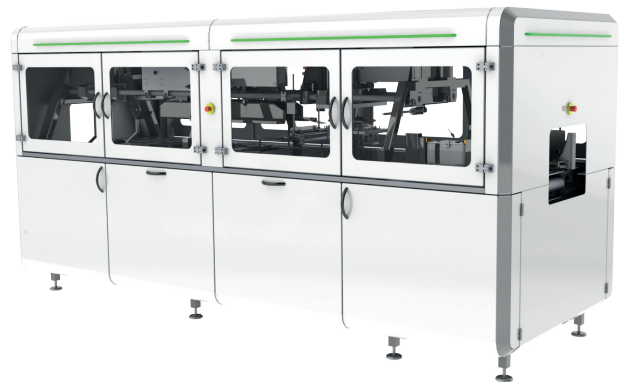

Flexible wrapping machine

As a convincing service partner we provide you with thorough advice and service before and during the order processing and of course beyond this, with a reliable after sales service. Design, mode of operation and handling of our machines are always state of the art in technology.

## RANGE OF APPLICATION

Fully automatic packaging machine for butter, margarine and other edible fats, as well as other comparable products of various sizes for further industrial processing. Versatility in application in spite of little required space characterizes the system type BFW 15. It is suited for user who wish for variable formats in packaging blocks or plates of edible fats, yet lack available space. This machine is optimized in design and function to meet the highest standards of packaging flexibility and reliability.

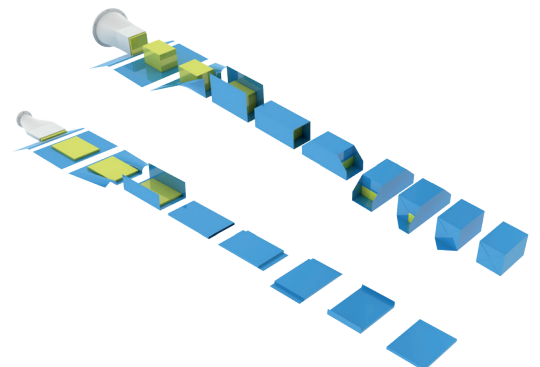

## GENERAL INFO

The extreme format flexibility due to integration of latest servo technology makes this machine completely unique on the market. Blocks and plates of fats can be produced on only one machine. The machine is equipped with the latest touch screen technology and a touch screen optimized control system. This allows an easy and intuitive operation of all recipes and production parameters.

## FUNCTION

The infeed of the product is realized in a hygienically closed system directly from one of our resting tubes in a continuous flow. The process velocity is synchronized with the flow of product automatically. The wrapping material is automatically fed from the paper reel and cut true to dimension. Highly weight accurate cutting of the product in the flow by our "flying cutter", controlled by a laser measuring system. In the further passage through the machine the wrapper is then folded around the product.

## TECHNICAL FACTS

Range of size:	blocks 2 kg to 15 kg plates 1 kg to 5 kg
Maximum performance:	8 t/hour (on 15 kg blocks)
Packaging material:	min. 50 g/m <sup>2</sup>
Energy consumption:	15 kW in total
Weight of machine:	2,8 t
Handling:	line supervision (1 person)

## BOCK FLEXIBLE WRAPPER BFW 15

## ADVANTAGES

### clear advantages...

- blocks, bars and plates on one machine
- intuitive operation via touch screen
- excellent accessibility to all areas
- hygienically encapsulated packaging area
- worldwide remote assistance via internet
- meets highest hygienic standards

## ACCESSORIES

### ... and everything that goes with it

- resting tubes in various formats
- resting tube heating system
- sieve and hole discs
- block precutting unit
- check weigher
- metal detector

### best combinable with ...

- case packer BWA 10/25-V
- palletizer BPR 25
